

# MimioQuickLearn

## MimioStudio: Putting Instructional Design to Work

This one-hour, live, online training session provides participants with the knowledge they need to create their own interactive lessons and activities.

Participants who successfully complete the session will advance their Mimio skills and learn how to best use MimioStudio™ software to create more engaging and effective lessons and activities.

**This session is designed for intermediate and advanced users of MimioStudio software (see Session Prerequisites, below).**

Participants will:

- Learn to create interactive pages in MimioStudio software, using various tools and techniques.
- Apply instructional design components to a lesson or activity.
- Maximize instructional and interactive techniques to engage students and increase their learning.
- Learn methods to enhance lessons with collaboration and assessment, using the MimioMobile™ application.

During the session, participants will have the opportunity to ask questions and interact with the software.

We encourage participants to attend additional sessions to maximize their abilities with Mimio products and bring their teaching into the 21st century!

### Session Prerequisites:

This session will require the application of various tools to create educationally sound and interactive lessons. Participants should have prior knowledge of and experience using the tools found within MimioStudio software. Before attending this session, you should attend and participate in the following Quick Learn Sessions: Tour of MimioStudio, Using the MimioStudio Gallery, MimioStudio: Adding Content, MimioStudio: Formatting 1, MimioStudio: Formatting 2, MimioVote: Creating Assessments, Mimio Goes Mobile.

If you are not able to attend all the prerequisite sessions before this session, you should at least have experience using MimioStudio tools (pen, shapes, transparency, color palette, etc.), screen clipping, grouping, animations, hyperlinking, object ordering, Gallery, locking, alignment, cloning, backgrounds/templates, action settings, MimioVote™ templates, and creating MimioVote questions and answers.
